

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-4 (canceled)

1 Claim 5 (original): A method for treating non-specific
2 inflammations caused by physical/chemical factors,
3 comprising administering a patient a pharmaceutical
4 composition comprising an effective amount of
5 N-acetyl-D-glucosamine or pharmaceutically acceptable
6 salts thereof.

1 Claim 6 (original): A method according to claim 5,
2 wherein said pharmaceutical composition is of aqueous
3 form, vinum form, ointment form, powder form or
4 injectable form.

1 Claim 7 (previously presented): A method according to
2 claim 5, wherein the dose of said pharmaceutical
3 composition is 1-100000 mg/day/75 kg bodyweight, based on
4 the active component.

Claims 8-10 (canceled)

1 Claim 11 (previously presented): A method according to
2 claim 6, wherein the dose of said pharmaceutical
3 composition is 1-100000 mg/day/75 kg bodyweight, based on
4 the active component.

1 Claim 12 (new): A method according to claim 5, wherein
2 the N-acetyl-D-glucosamine in said composition has a
3 concentration of 0.1-10% by weight.

1 Claim 13 (new): The method according to claim 5, wherein
2 the non-specific inflammations are selected from a group
3 consisting of burn injury, blunt tearing injury, surgical
4 trauma, and cold injury.

1 Claim 14 (new): The method according to claim 5, wherein
2 the non-specific inflammations are those caused by burn
3 injury.

1 Claim 15 (new): The method according to claim 5, wherein
2 the non-specific inflammations are those caused by blunt
3 tearing injury.

1 Claim 16 (new): The method according to claim 5, wherein
2 the non-specific inflammations are those caused by
3 surgical trauma.

1 Claim 17 (new): The method according to claim 5, wherein
2 the non-specific inflammations are those caused by cold
3 injury.
